Summary

Well-qualified Full Stack Developer familiar with wide range of programming utilities and languages. Knowledgeable of backend and frontend development requirements. Handles any part of process with ease. Collaborative team player with excellent technical abilities and related experience.

Experience

Full Stack Web Developer

ITI • Cairo   02/2022 - 07/2022

- Used Javascript, SQL and HTML to develop app-solutions.
- Reviewed code, debugged problems and corrected issues.
- Improved and designed monitoring systems to address issues with system stability and quality of data.
- Managed development milestones from initial steps through final delivery.
- Consulted with engineering team members to determine system loads and develop improvement plans.
- Followed SDLC best practices within Agile environment to produce rapid iterations for clients.
- Liaised between marketing and IT on web development projects integrating front-end assets to back-end systems.
- Coded using HTML, CSS and JavaScript to develop features for both mobile and desktop platforms.
- Collaborated with stakeholders during development processes to confirm creative proposals and design best practices.
- Performed user experience quality assurance testing to identify and remedy shortcomings.
- Designed and updated layouts to meet usability and performance requirements.

Front End Web Developer

NTI • Cairo   08/2021 - 03/2022

- Assembled and addressed technical and design requirements, integrating user-facing and front-end elements to maintain web presence effectiveness.
- Collaborated with stakeholders during development processes to confirm creative proposals and design best practices.
- Assisted back end developers with troubleshooting and problem solving.
- Integrated web applications for mobile platforms into front end environment.
- Identified bottlenecks and bugs and devised solutions.
- Use regulatory and compliance standards for user interface designs.
